TOBACCO SEASON

Rain and Warm Weather Just Right
For Preparation of the Wood For
Market Which Opens Next
Tuesday, December 8.

The rains of Sunday and this morning
have softened up tobacco in barns
and is just right for taking down and
stripping; indeed this warm, wet spell
is a boon and a blessing to all on the
farm as the rain has been wanted for
weeks.

Should the rain continue for several
days there will be a large quantity of
tobacco ready for the opening sales at
the Maysville loose leaf market next
Tuesday, December 8.

WAR ON ILLITERACY

LAST RITES

Over Remains of Warren LaRue
Thomas This Afternoon at 2:30
O'clock at Danville—Mrs.
Thomas Accompanied Body
From Tucson.

Mrs. Mollie W. Thomas, widow of
Warren LaRue Thomas, prominent Ma-
son, who died Tuesday in Tucson, Ariz.,
accompanied the body of her husband to
Kentucky. She was met at Louisville
this morning and accompanied by relatives
to Danville, where funeral serv-
ices will be held at 2:30 o'clock this
afternoon.

Mr. Thomas was past grand master
of the Grand Lodge of Kentucky, past
grand high priest of the Grand Chap-
ter of Kentucky, past eminent com-
mander of the Grand Commandery of
Kentucky, and past grand master of
the Knights Templar of the United
States. Although he had not been a
resident of Kentucky for a number of
years, he was a regular attendant at
the annual meetings of the Kentucky
Grand Lodge and Grand Chapter and
took a keen interest in the Masonic
Home.

Mr. Thomas was reared in Danville.
He was a graduate of Center College.
Until a few years ago he made his home
in Pittsburg, where he was president of
a life insurance company, leaving
Pittsburg to make his home in Arizona
and retiring from business.
Funeral services will be under Ma-
sonic auspices. He is survived by his
wife, Mrs. Mary W. Thomas; four sis-
ters, Mrs. A. C. Hodgen and Mrs. S.
V. Leedom of Russellville, Ky., and
Mrs. J. J. Norton and Mrs. J. A.
Conns of Louisville, and a brother, W.
B. Thomas of Danville.

PLEASED WITH MAYSVILLE.

(Chillicothe Gazette.)
Dr. and Mrs. G. E. Robbins and Mrs.
C. J. Ware and son, Charles Ware, re-
turned Friday evening from Maysville,
Ky., where they went with Dr. Rob-
bins to attend Mason county, Ken-
tucky's tuberculosis day and health
league day. Dr. Robbins having been
invited to be one of the speakers upon
the occasion. Dr. Robbins is loud in his
praise of the hospitable treatment ac-
corded him and his party, and says
that Maysville is alive to the goal
which will flow from the work of an
active anti-tuberculosis society.

TREMENDOUS FIGHTING
CONTINUES

Germans Sink Three More English
Ships.

London.—German submarines have
sunk two more British steamships and a
German mine sent to the bottom a
British naval collier, according to of-
ficial admission of the British Admir-
alty.

The submarine's victims were the
merchantsmen Malachite and Primo.
They were destroyed in the English
Channel. Their crews were saved, that
of the Malachite being landed at
Southampton and the officers and men
of the Primo reaching Pacamp, 35 miles
from Dieppe, in France. The Khartoum
struck a mine off Grimsby, 15 miles
southeast of Hull. The collier's crew
was landed at Grimsby.

French and English Blockade Seas.

Bordeaux.—An official naval bulle-
tin issued here says:

"In the Mediterranean, French and
English squadrons continue to block-
ade the Adriatic sea and the Dardan-
elles and to protect the coasts of Egypt
and the Suez canal.

"In the North sea, British and
French ships have made a reconnais-
sance of the German batteries estab-
lished on the Belgian coast.

"The German cruisers in the Pacific
do not seem to have left Chilean waters
since the fight of November 1."

London, November 29.—The weekly
dispatches of the Boulevard correspond-
ent says:

"The Germans have collected 700,
000 men in the neighborhood of Arras,
where they are preparing for a deter-
mined effort to break through the allies'
line.

Brakeman Sustained Injuries, Rules
Appellate Court.

Frankfort.—The Court of Appeals af-
firmed the judgment of the Fayette Cir-
cuit Court in the case of Ed. Wiley
against the Cincinnati, New Orleans &
Texas Pacific Railroad Company. Wiley,
a brakeman, was injured in coupling
cars. The court held that the company
was not liable and that Wiley had as-
sumed the risk.

DECEMBER'S DELUSIONS

To begin with, the very name is misleading: It is not the tenth month as its name would imply, but the twelfth.
That's because the year used to begin with the vernal equinox in March, but times have changed since then in more
respect than one. The most deadly delusion of all, however, is the impression some people have that they can put
off buying heavy goods until after Christmas. To persist in that idea is to make ready for spending the same holiday
under the cypress. Too grave for amusement, isn't it?

RED LIGHT WAR IN DAYTON.

The social problem is to the front in Dayton, owing to an order issued by City Manager Waite closing all of the houses in the segregated district, and the papers of that city are full of interviews of various kinds about the action. The general opinion seems to be that the order was a little hasty and that too short a time was given to meet the changed conditions. This view is taken by President Corley of the Dayton Social Welfare League, who is quoted as saying:

"While the closing of the red light district has always been the ultimate aim of the Dayton Social Welfare League, the action of City Manager Waite has been a little precipitate," commented President Corley. "We are gratified that the houses are to be closed, but our funds will be crippled as a result of it. Still we will do all we can to co-operate in securing positions for the girls who want work."

Another opinion given by Judge Budroe, of the Dayton Municipal Court, is blunt and to the point. He says:

"In almost every city where reformers have taken hold of the governmental reins, a similar attempt has been made to close the segregated districts," said Municipal Court Judge Budroe, "mostly, I think, for effect. I have been on the criminal court bench in Dayton for three years and in this time I have not seen more than three women of this district brought before me for more than a petty charge. It is from lewd women not properly supervised that most of our problems arise."

"In Indianapolis the real estate dealers particularly declared against the arrangement, saying that it was impossible to keep flats and apartment houses free from prostitutes. People are no different in Ohio than those in Indiana."

On the other hand, City Manager Waite says that his order was not based upon the belief that vice could be eradicated in Dayton, but was inspired by a desire to shift the burden for its existence from official shoulders.

"The city management is tired of assuming the responsibility for prostitution in this city," said City Manager Waite, in discussing the matter with certain officials before he left for the east. "What we want to do is to shift the burden to the shoulders of those who are directly and indirectly responsible for it. Those who are engaged in this illegitimate business now know that they do not have the sanction of official authority, and whatever infraction of the law may occur, they are fully assured that they are more than likely to have to suffer the consequences."

The outcome of the experiment in Dayton will be watched with interest. If the city government can make its order effective, if it can keep the inmates of the disorderly houses from spreading over Dayton, it will have accomplished much for the betterment of the general morals of the community. But it is useless to deny that it is still a much mooted question as to whether or not segregation and strict supervision, is not the best way to handle the problem in the large cities.

TYPHOID CARRIERS.

Now that the quality of public water supplies has been greatly improved and the practice of milk pasteurization has been widely introduced, outbreaks of typhoid attributed to typhoid carriers are becoming more conspicuous than formerly, although probably they are not really more frequent. A remarkable epidemic due to food infected by a carrier was recently reported by Sawyer in a recent issue of the Journal of the American Medical Association, and while this was perhaps exceptional in the number of persons infected at one time, it emphasizes the grave danger of allowing carriers to have to do with the preparation or handling of food intended for general consumption. The still more recent typhoid outbreak at Lehigh University with more than fifty cases and several deaths has been traced likewise by the Pennsylvania State Department of Health to a kitchen employee who proved to be a healthy carrier. Such instances—and they are multiplying fast—suggest that wherever feasible, employees handling foods liable to spread infection should be examined for a possible typhoid reaction in the blood. In case the reaction is positive and even when it is negative, but there is a definite history of typhoid fever, bacterial examination for typhoid germs should be made. Application of the test could probably be made with little inconvenience in connection with the student dining halls of many educational institutions where proper bacteriologic facilities and expert service exist. We know of at least one American university where such a routine examination of the employees concerned in the handling of food has been practiced for several years past. The disaster at Lehigh shows that such precautions are justified, and that with our present knowledge of typhoid causation some responsibility in this regard may be justly expected from college authorities. There are also many hospitals, sanatoriums and public institutions in which the necessary facilities and skill for such examinations exist or could be readily provided, and here, too, it is true that to be forewarned is to be forearmed. In the future uncomfortable questions may be asked when carrier outbreaks occur in large institutions that are provided with bacteriologic facilities.

RICHMOND'S A BUSY MAN.

R. P. Hobson, Representative from Alabama, who specializes on prohibition and the Japanese war scare, proposes to keep the temperance pot boiling in Congress again this winter, and as a preliminary effort will send a letter to each member of Congress from Ohio, Indiana, Kentucky and all other states asking them to express their attitude toward the Hobson prohibition amendment. If Hobson can obtain a complete poll showing a majority in favor of the amendment he will probably use it to compel the House Committee on Rules to report out a rule for the consideration of the amendment.

MARVELOUS!

Such profound wisdom as this, reported in the Boston Transcript's alleged joke column, could proceed, of course, only from a Boston child:
 "A little lad of our acquaintance recently discovered why the giraffe has such a long neck."
 "Because his head is so far from his body," he explained."

A chronic groucher declares that the man who introduced grapefruit as an article of diet played a joke on humanity.

THE AVERAGE DURATION OF SICKNESS.

It is recognized that much of our data regarding disease is practically valueless because the statistics recorded in different localities and for different purposes are not intelligently co-ordinated. The facts are on record, but the deductions which can be drawn only from carefully tabulated facts are too often lacking on account of the incompleteness of the records. One of the most promising features about the present public health situation is that the facts regarding disease are beginning to be subjected to the same careful scrutiny and mathematical analysis that have in previous years been given to life insurance tables and other tabulations of business facts. The Prudential Insurance Company of America has issued a reprint containing an address before the National Organization for Public Health Nursing, on "Practical Statistics of Public Health Nursing and Community Sickness Experience," by Mr. Frederick L. Hoffman. After commenting on the well known lack of uniformity in recording the statistics of visiting nurses, of terminology and of completeness of records, Mr. Hoffman presents the statistics of visiting nurses' associations for Baltimore, Boston, Chicago and Philadelphia for 1912 and 1913. Tabulating these reports, he finds that the four associations in one year gave attention to 58,933 patients, making 429,620 calls, or an average of seven calls per patient. After discussing the general condition of hospitals and hospital treating throughout the country in an endeavor to establish the essentials of an analysis on this subject, Mr. Hoffman finds that the average duration of sickness, as far as can be determined from the fragmentary records, was eleven days for ages under 44 and twenty-three days for ages over 45, and that the average nursing duration for sickness for patients over 45 is seventy days for males and twenty-five days for females. Many other interesting facts and deductions are presented. Mr. Hoffman's painstaking study of a large mass of hospital reports and statistics is of distinct value, although the most important point emphasized, in the opinion of the Journal of the American Medical Association, is the meagerness and incompleteness of our data.

DARN QUEER.

The longer I linger the more I discern that this world of ours is a darn queer concern. It's a crime to pick pockets, but it's perfectly right, to pick a man's wages on Saturday night, for the laws are constructed, wherever I've been, that the workers are made for the grafters to skin. If you try to be honest you don't stand a chance; you are sure to be known by the patch on your pants. If you steal a few millions, you're a person of note; if you steal a ham bone the police get your goat. If you run around naked you're sent to the pen; if you swipe some old clothing you go there again. If you murder in war then your valor is sung; if you privately murder you're doomed to be hung. If a girl sells her virtue she's branded vile; but the rooster that bought it is met with a smile. If a man tells the truth then the people get tired; if he tells them a myth, why they say he's inspired. It's a funny old world wherever you turn; it's a devilish, twisted and darn queer concern; it's badly balled up and it's badly out of tune, and must be a sight to the man in the moon.—Henry M. Tichenor in the Rip-Saw.

BUFFALO BILL LEADS RED CROSS SEAL SALE.

"Buffalo Bill" and the business men of Cody, Wyoming, where he lives, have agreed this year, as they did last, that every piece of mail which goes out of the town during the month of December should bear a Red Cross Christmas seal.

Last year, led by Buffalo Bill, they purchased 23,500 seals—a record which will probably go unbeaten in this country for the greatest use of seals per capita. Cody has a population of about 1,200, and the seals purchased mean that they used nearly twenty per capita.

Is your town going to sell five or ten for each inhabitant? If not, why not?

We have a farm of 80 acres located about five miles from Maysville on good pike. There is on this farm a five-room house, stable, good tobacco barn, and necessary out-buildings. About twenty acres of blue grass, balance of place is in grass, with the exception of about twelve acres that will be plowed next season. If you want a farm close to town that is priced right you will buy this farm at \$90.00 per acre.

JUDGE FOR YOURSELF

Which Is Better—Try An Experiment or Profit by a Maysville Citizen's Experience.

Something new is an experiment. Must be proved to be as represented. The statement of a manufacturer is not convincing proof of merit.

But the endorsement of friends is. Now supposing you had a bad back, A lame, weak, or aching one, Would you experiment on it? You will read of many so-called cures.

Endorsed by strangers from faraway places, It's different when the endorsement comes from home.

Easy to prove local testimony. Read this Maysville case: M. C. Chisholm, 317 E. Second St., Maysville, Ky., says: "There was a time when my kidneys were badly disordered and I was annoyed by many symptoms of kidney complaint. Doan's Kidney Pills, procured at Wood & Son's Drug Store, removed the trouble and good health since then is evidence of merit. I have seen many other Doan's Kidney Pills have worth. My former endorsement still holds good." Dealers. Don't simulate remedy—get the same that Mr. Chisholm, of Maysville, Ky., used. Milburn Co.,

ONLY A DOG

But He Spent Three Days in a 45-
Foot Vault.

(Augusta Chronicle.)
Several days ago Finley Henderson,
the tobacco man, missed his fine bird
dog, and notwithstanding the fact
that he made diligent inquiry he could
find no trace of him. After the dog
had been gone several days a dog was
heard whining in a vault, back of
Mrs. S. P. Conley's home, on Eliza-
beth street; and investigation being
made the missing dog was discovered.
The vault, which had recently been
cleaned out, is about 45 feet deep; at
a depth of about 30 feet a board pro-
jected, on which the animal alighted in
its descent, and on which it clung until
found, at least three or four days.
"Dock" Preston, the handy man,
played cowboy and lassoed the dog
after several attempts, and he was
turned over to his master as good as
ever, excepting that he was unusually
lank after his long fast.

There'll Come a Time

when constant leaning on coffee is bound to result for most
people in shattered nerves, heart flutter, biliousness, head-
ache, or some other of the well known coffee ills.

It's the drug, "caffeine," in coffee—about 2 1/2
grains to the cup—that causes the trouble.

If coffee disagrees, try

POSTUM

—the pure food-drink,

free from the drugs, caffeine and tannin, or any other harm-
ful substance.

Nothing but the goodness of choice wheat, roasted, with a
bit of wholesome molasses, enters into Postum. A beverage
of delightful taste and aroma, used with benefit by young and
old.

"There's a Reason"

Postum comes in two forms:

Regular Postum, which has to be boiled—15c and 25c pkgs.
Instant Postum—soluble—made in the cup, instantly—30c and
50c tins.

Cost per cup is about the same for both kinds.

UNITED STATES

Passes 100,000,000 Population—Quad-
rupling of People and Vast Growth
of Wealth in 50 Years Told
Officially—Savings Four
Billions.

The population of the United States
today is more than 100,000,000 and the
money in circulation totals \$3,419,000,
000, while 11,000,000 of the thrifty in-
habitants have \$4,375,000,000 in the
savings banks.

Such is the announcement made
here recently by the Bureau of Foreign
and Domestic Commerce in the De-
partment of Commerce. The pamphlet
issued by the Bureau is entitled "Sta-
tistical Record of Progress of the
United States, 1850-1914." It gives a
"half-century retrospect" and a
"clear perspective" of the nation's
quadrupling of population and multi-
plying a hundred-fold of industrial
values.

"Since 1850 the population, then 25,
000,000, has more than quadrupled,"
says the bulletin. Commerce has grown
from \$318,000,000 to \$4,259,000,000, and
the per capita value of exports from
\$16.96 to \$23.27."

National wealth has increased from
\$7,000,000,000 in 1870 to \$140,000,000.
For the entire country bank clearings
have grown from \$62,000,000,000 in 1887
to \$174,000,000,000 in 1913.

Improved social conditions among the
people are shown in that 19,000,000
children are enrolled in public schools
and 200,000 students in college. The
total expenditure on education approxi-
mates \$500,000,000 a year.

More than 22,000 newspapers and
periodicals are printed.

In 1850 there were 251,000 depositors
in savings banks. There are now 11,
000,000 with deposits aggregating more
than 100 times as much as at the mid-
dle of the last century.

The value of farms and farm prop-
erty increased during the last half cen-
tury from \$4,000,000,000 to \$41,000,
000,000; value of manufactures from
\$1,000,000,000 to over \$20,000,000,
000, and the number of miles of rail-
road in operation from 9,921 in 1850 to
258,033 in 1912.

In the last twenty-five years the
number of passengers carried has in-
creased from 492,000,000 to 1,004,000,
000, and the volume of freight hand-
led each year from 632,000,000 to 1,
845,000,000 tons.

Nearly 20,000,000,000 pieces of out-
going mail matter were handled annu-
ally by the Postoffice Department,
which disbursed last year \$262,000,000,
or \$2.70 per capita.

IDIOTICALS.
BY ONE.

The way some poor, tride women
keep a-tolling you'd think they were
trying to earn enough salt to keep the
Atlantic ocean supplied.

Among the other hold-up men might
be mentioned the fellow who invented
horse supporters.

About the only difference between a
rattlesnake and some policemen is that
the rattlesnake's butens aren't brass.

Some love uses up a lot more cream
and sugar than others.

Too many of us, when we see the
handwriting on the wall try to make
ourselves believe it's a circus poster
put up for our amusement.

Resembled them.
"Woman, your extravagance is aw-
ful! Do you think I'm a millionaire?"
"No. But you are stingy enough to
be one!"

Why not let the Prince of Wales and
the German Crown Prince settle it with
a game of dominoes?

Like some other questions, the Vis-
tula appears to have two sides, and
every time a German or a Russian gets
on one side he wants to cross over to
the other.

But in spite of the foot and mouth
disease, we'd rather have a cattle
range than a rifle range.

Some folks are like a rabbit—they're
always in a hurry.

GEORGE ALEXANDER

Trial of High Rolling Paris Banker
Resulted in Hung Jury.

At Paris Friday in the trial of
George Alexander, the alleged bank
wrecker, resulted in a hung jury, and
another trial will follow. The jury was
reported to stand 10 for conviction
and 2 for acquittal.

The Paris Democrat said of the
banker:

Mr. Alexander has been married three
times. First, to Miss Kate Spears, of
this city, by whom he has two daugh-
ters, Miss Kate Alexander of Paris, and
Mrs. Edith Bronston of Lexington. His
daughter, Miss Maggie Alexander, died
at the age of 14 years.

His second marriage was to Mrs. Eva-
lina Plater Keener of Nashville, Tenn.,
and just one year from the day she
came to Paris a bride, her body was
taken back to Nashville for burial.

Miss Mary Buford of Covington was
the third wife, and by this union there
are two daughters, Misses Marian and
Elizabeth Clay Alexander.

As a business man and elegant gen-
tleman no man in the state stood high-
er than Mr. Alexander until the crash
came last May and the affairs of the
bank were exposed.

It seems strange that a man of Mr.
Alexander's standing and advantages
could have "fallen from grace," and
be placed in the position he now finds
himself.

He had an elegant home, plenty of
money to live an easy life, a family
that any man should be proud of.

He had befriended many men in dire
need, both among the rich and among
the poor, in fact every one for whom
he had a personal liking, and as a con-
sequence had gained many friends. On
the other hand his manner rendered
him unapproachable and made him un-
popular with the people as a whole.

HUMORS OF LAW.

We laugh at old Wouter van Twiller,
Whose mode of deciding a case
Was to go by the looks and the weight
of the books

Which the lawyers brought into his
place.

We jest at his manner of judging
Because it is queer in our eyes,
And the erudite way of our jurists to-
day

Show up as decidedly wise
For now they determine on justice
By means that are noble to see,
By a comma misplaced in a proofread-
er's haste

Or a failure at crossing a "t,"
And having thus climbed to perfec-
tion,
To justice sans error or flaw,
Our laughter rings shriller at Wouter
van Twiller

And his way of deciding the law.

KENTUCKY WILL SEND WHEAT
TO EUROPE.

The United States has approximately
500,000,000 bushels of wheat on hand
this year for export and practically all
of it will probably be sold to the war-
ring countries of Europe. According
to a report issued today by the United
States Department of Agriculture the
wheat production of the United States
this year will be around 892,000,000
bushels and only 601,000,000 bushels
will be needed for food consumption
and seed purposes at home.

The per capita wheat consumption
of Kentucky for food is 4.5 bushels,
and the total annual requirement for
seed and food purposes in this state is
11,600,000 bushels, leaving a surplus
of production this year of approxima-
tely 692,000 bushels.

THE HORSE'S BOARD BILL.
Washington, D. C., November 30.—
The United States Department of Ag-
riculture has just completed figuring
the board bill of the American horse
and finds that he consumes \$16.67
worth of corn, \$7.77 of oats, 65 cents
worth of barley and \$14.30 worth of hay an-
nually. He eats 29 bushels of corn, 21
of oats, one bushel of barley and one
and one-fifth tons of hay each year.
There are about 25,000,000 horses and
mules on the farms of the United
States and their annual feed bill is
\$984,684,000. The total amount of corn
fed per year is 781,000,000 bushels, 525,
000,000 bushels of oats, 27,000,000
bushels of barley and 29,797,000 tons
of hay.

THE PATRIOTIC DOLLAR

CONGRESS DECREES DOLLARS IN-
DULGING IN LUXURIES MUST
FIRST SALUTE THE FLAG.

War Revenue Tax of \$105,000,000
Levied—Beer Bears Brunt of
Burden.

Congress has levied a war tax of
\$105,000,000 to offset a similar amount
of loss on import revenue due to the
European disturbances and of this
amount beer is the heaviest
contributor, having been assessed ap-
proximately \$50,000,000; a stamp tax on
negotiable instruments, it is estimated,
will yield \$31,000,000; a tax on the
capital stock of banks of \$4,300,000
and a tax on tobacco, perfumes, thea-
ter tickets, etc., makes the remainder.

Congress has decreed that the
brewer, the banker and the investor
must shoulder the musket and march
to the front; that millady who would
add to her beauty must first tip Uncle
Sam, and a dollar that seeks pleasure
must first salute the flag; that Pleasure
and Profit—the twin heroes of
many wars—shall fight the nation's
battles and by an ingeniously ar-
ranged schedule of taxation congress
has shifted the war budget from the
shoulders of Necessity to those of
Choice and Gain, touching in its
various ramifications almost every line
of business.

All hail the dollar that bleeds for
its country; that bares its breast to
the fortunes of war and risks its life
to preserve the stability and integrity
of the nation's credit.

The market place has always been a
favorite stand for war revenue col-
lectors. The trader is a great finan-
cial patriot. His dollar is the first to
rally around the star-spangled banner
and the last to hear the coo of the
dove of peace. He is called upon to
buy cannon; to feed and clothe the
boys in blue and each month cheer
their hearts with the coin of the
realm. Men can neither be free nor
brave without food and ammunition,
and money is as important a factor
in war as blood. Many monuments
have been erected in honor of heroes
slain in battles, poems have been writ-
ten eulogizing their noble deeds and
the nation honors its soldiers while
they live and places a monument upon
their graves when they die, but very
little has been said of the dollar that
bears the burdens of war.

Honor to the Dollar that Bears the Burdens of War.

All honor to the dollar that an-
swers the call to arms and, when
the battle is over, bandages the
wounds of stricken soldiers, lays a
wreath upon the graves of fallen
heroes and cares for the widows and
orphans.

All honor to the industries that
bend their backs under the burdens
of war; lift the weight from the shoul-
ders of the poor and build a bulwark
around the nation's credit.

All honor to those who contribute
to the necessities and administer to
the comforts of the boys who are
marching; cool the fever of afflicted
soldiers and kneel with the cross be-
side dying heroes.

A dollar may fight its competitor in
business, industries may struggle for
supremacy in trade and occupations
may vie each other with envy or
suspicion, but when the bugle calls
they bury strife and rally around the
flag, companions and friends, mess
mates and chums, all fighting for one
flag, one cause and one country.

The luxuries in life have always
been the great burden-bearers in gov-
ernment. We will mention a few of
them giving the annual contributions
to the nation's treasury: Liquor, \$250,
000,000; tobacco, \$103,000,000; sugar,
\$54,000,000; silks, \$15,500,000; dia-
monds, \$3,837,000; millinery, \$2,479,
000; furs, \$2,024,000 and automobiles,
\$870,000. We collect \$665,000,000 of
internal and custom revenue annually
and \$450,000,000 of this amount classi-
fies as luxuries, and to this amount
we should add the \$100,000,000 war tax
now levied.

The war tax is immediately effec-
tive. Tramp! Tramp! Tramp! the
industries are marching \$100,000,000
strong and beneath the starry flag
they will fill the treasury again while
they shout, "Hurrah for Uncle Sam!"

In every field of human activity the
demand for more competent men and
women is growing every day. Espe-
cially so in agriculture.

Home pride is a mighty valuable as-
set, and the farmer who has none is
carrying a heavy handicap on the
road to success.

Work is the salve that heals the
wounded heart.

SAYINGS OF SAGES.

Man was born for two things—thinking and acting.—Cicero.

Wounds can not be cured unless they are probed.—Livy.

Obsequiousness begets friends; truth, hatred.—Terence.

It is noble to grant life to the vanquished.—Statius.

If anything affects your eye you hasten to have it removed; if anything affects your mind you postpone the cure for a year.—Horace.

IT'S THE TRUTH, WHOEVER WROTE IT.

It is not the one who has the most that gives the most away; Nor yet the one who knows the most that has the most to say.

'Tis oft the one who has the least that gives the most away; So does the one who knows the least have oft the most to say.

The adoration to the effect that faith will move mountains is generally accepted, but there is no evidence to that effect.

Some tailors understand the art of making coats and other art of making trousers. But no tailor ever was able to do both.

\$1,000,000 DAM COMPLETED

First Ohio River Work of Kind Constructed by Contract Labor.

Gallipolis, O.—Lock and Dam 28, located 30 miles below Gallipolis, Dam 26 at Marcums, has just been completed at the cost of \$2,000,000. Kanawha coal operators and river men generally are insisting that work be started on Dam 27, a connecting link in the chain of the Kanawha river mines, 100 miles distant. Dam 28 is the first Ohio river dam to be constructed by the government with contract labor.

SPECIAL TERM

Ordered by Court For Trial of Alexander Indictments.

Paris, Ky.—In Circuit Court this afternoon, on motion of Commonwealth Attorney Victor Bradley, Judge Stout issued an order for a special term of court, commencing on Monday, December 21, and closing Monday, January 4, for trial of 11 of the 32 indictments against George Alexander, president of the defunct Alexander State Bank.

During this term only the Alexander cases will be tried, and they will embrace eight indictments for embezzlement and three for alterations of checks and notes.

Mr. Alexander's attorneys entered a protest, but were overruled.

ILLITERACY—AS A LAWYER SEES IT.

The legal profession, just as every other profession or occupation, has its unpleasant features. The lawyer, by virtue of his profession, hears stories of unhappiness and misery which other members of the community know little or nothing. He learns of the vicious and criminal side of life around him through the records of the criminal courts, and by reason of his attention being constantly directed to the crimes committed in the community and his observation of the lawbreakers, it is only natural that he should become interested in the causes for the various offenses.

In probably a majority of instances, the cause for the crime can be traced to illiteracy. Eradicate illiteracy and the number of cases on the docket of the criminal courts will be materially reduced. Education and morality are more closely connected than the average person realizes. Illiteracy breeds superstition, jealousy, hatred, misunderstanding and prejudice, and to the illiterate there is a twilight zone between good and evil wherein he is unable to distinguish right from wrong. Education refines the intellect and indirectly promotes morality and good citizenship, for the educated mind perceives the necessity for the various restrictions imposed by law and the moral code, and that what is best for one's neighbor is best for one's self. Many crimes are the results of ignorance rather than base motives and the offender is more of an unfortunate than a criminal. It is not the purpose of the writer to convey the idea that all illiterates are criminals by any means, but that illiteracy is conducive to crime and that frequently an illiterate that is a liability upon the community in which he lives can be converted into a valuable asset with a little effort. In addition to the tremendous cost to the state occasioned by crime resulting from illiteracy, is the effect of illiteracy upon the efficiency of the government itself. A government such as ours is dependent upon the intelligence of the electorate for success, for it is the history of republican institutions that ignorance begets corruption and inefficiency, while an educated and enlightened citizenship will demand and secure honesty and efficiency from those in authority.

NEW IDEA OF A DRY TOWN.

(Paris Democrat.) A colored "pusson" was in Bramblett & Tarr's grocery Saturday feeling fine and in a very talkative mood. He was lecturing on the moral, social and economic value of a "wet" town. The gist of his lecture, however, may be summed up in one of his sentences: "If a pusson comes to town and there ain't nothing to stimulate him he had mought as well go right on back to the country and stay there."

COMING FRIDAY—"THE MASTER MIND"—FEATURING MR. EDMUND BREEZE

FIFTY YEARS AGO IN CINCINNATI.

November 28, 1864. (Commercial Tribune)

Typical Indian summer weather prevailed yesterday, the temperature ranging between 49 and 56 degrees, with a clear sky.

Over 400 refugees arrived here yesterday and nearly as many more on Saturday. These people are in wretched condition, men, women and children being half starved and nearly naked. Military authorities have taken them in hand.

The packet Peerless arrived from Wheeling yesterday with a big passenger list, among them being General Powell and staff. When near Moundsville Colonel McClooney fell down the main stairway and was so seriously injured that he was placed on shore at that point.

General Hancock, who is still suffering from an old wound, is spending a few days at the Burnet House under treatment of local army surgeons. The steamer William L. Ewing sank last Friday at a point 40 miles below St. Louis. She was owned by Cincinnati parties, valued at \$10,000, and is a total loss. Two deck hands were drowned.

There were eleven arrivals and twelve departures yesterday, all boats having fair freight and heavy passenger trips.

The steamer Katie, which left Evansville last Friday bound up, was in collision with the Des Moines at Diamond Island on Saturday and sank in shallow water. All passengers and members of the crew were saved with the exception of two darkies and one white man. The latter when last seen was going down stream on the back of a ball.

HOGS, CATTLE OR MEN—WHICH?

"Michigan is making a vigorous effort to stamp out hog cholera. Hogs are marketable," said Governor Woodbury N. Ferris to the citizens of his state in a recent proclamation calling for co-operation in the anti-tuberculosis campaign. "Michigan is making a vigorous effort to 'stamp out' tuberculosis in cattle. Cattle are marketable. Why not make a strenuous effort to 'stamp out' tuberculosis in men, women and children? Human beings are priceless."

Red Cross Christmas seals are a means for every man, woman and child in the United States to have a share in "stamping out" tuberculosis. Have you bought your share?

21,976 FORDS SOLD IN SEPTEMBER

The Ford Motor Co., announces that in the month of September there were sold and delivered 21,976 Ford cars. This was a gain of 11,479 cars over September 1913. This is significant not only because it shows that the Ford production is rapidly being increased to meet the stupendous influx of orders, but also because it demonstrates that the Ford Motor Company is maintaining the 300,000 car-schedule necessary to give Ford purchasers between August 1st, 1914 and August 1st, 1915, a share of Ford profits.

We have just received a car-load of the new 1915 models, and can give you immediate delivery. There's nothing to gain by waiting, so order now and enjoy your car this fall and winter.
